

6484
370

HAPPY New Year.
1899; and don't forget.
RAILWAY travel is light.
PUBLIC school opens to-morrow.
PENNIE and bank holiday to-day.
Post office opens at six o'clock to-day.
Ice roads and bad travelling. Scarcely any snow.

F. H. SACKS went to Hamilton on Saturday's train.
C. GALLAGHER went to Winnipeg on Saturday's train.
Mrs. J. A. McDONALD left for the east on Saturday's train.

The normal school did not suspend during Christmas week.
Mrs. T. G. REAS, of Belmont, has gone east on the Christmas excursions.
Geo. BULL, of Sturgeon, is visiting his friends at Lethbridge on Friday's train.
HOCKEY match at the Thistle rink this afternoon. Thistles vs. Shamrocks.
F. FRASER THOMSON went on Saturday's train to visit relatives in the city of Quebec.

W. C. WILSON, of Regina, has been appointed an inspector of steam boilers for the Territories.
The average attendance of the South Edmonton public school for 1897 was 92, and for 1898, 158.
S. PARKINSON, one of the pioneers of South Edmonton, now of Roseland, visited South Edmonton last week.

D. R. MCCORMACK arrived from Regina last week to take a position in South Edmonton public school.
The grand lodge of the ancient order of united workmen has been granted a license to carry on business within the Territories.
Miss MCINTYRE, who has been engaged to teach a department of the public school, arrived from Lethbridge on Friday's train.

If present indications of improved prices for wheat hold, the bad roads of early winter have been a God send to the farmers.
Miss MCBRYEN, of Innisfail, at one time teacher in the Edmonton public school, has been visiting Mrs. Jax. Ross during the holidays.
L. RICE and F. O. RADWAY, of South Dakota, came in last week to settle. They were accompanied by their families, and brought two cars of stock and effects.

The New Year was welcomed by an artillery salute fired from the cannon at the Hudson's Bay fort, a custom which has prevailed here beyond the memory of man.
The Roseland board of trade have issued a report which for typographical excellence, and for completeness in placing Roseland and its mines before the public, leaves anything of the kind ever before attempted in Canada.
The farm, farm stock, implements and household effects of the late Jas. Stamp will be sold at his late homestead, Horse Hill settlement, on Tuesday, Jan. 17th, 1899, under orders of the administrator of the estate. Lunch will be served at the sale.

The Union Threshing Co., of Lamoureux post office, is applying for incorporation. Capital \$4,000, in 100,000 shares. The provisional directors are: Docitha Lamoureux, Hormidas Vezina, Chas. Paradis, Joseph Godard, Marcel Doray, James Stamp, J. B. Beaupre, and T. J. Stacey.
The Boundary Creek Times, of Greenwood, B. C., has issued a magnificent holiday number. The Times is a sample of fine art printing in every issue, but in the holiday number it excels itself. Greenwood is the most successful of the new mining towns of British Columbia, and its success is not a little due to the excellent work of the Times.

CONCERT at Sturgeon Methodist church on Wednesday evening last. Small attendance owing to bad roads. Another concert will be given on Jan. 25th. A party who went out from town to take part in the concert were entertained for a couple of hours at the home of Mr. Long, where they did justice to the excellent dinner provided by Miss Long.

GERMANTOWN public school district, No. 479, has been proclaimed comprising the following land: Sections 19, 20, 29, 30, 31, 32, in township 48, range 24; sections 25, 26, 27, 28, 29, 30, 31, 32, in township 48, range 25; sections 5, 6, 7, 8, in township 49, range 24; and sections 1, 2, 3, 10, 11, 12, in township 30, range 25, all west of the 4th meridian into a school district.

The Cascade, B. C., Record mentions that J. G. McLean & Co. have moved their entire outfit from their late location near Gladstone and gone to Goat Lake landing on the Nelson and Bedlington line. This should, and no doubt does, mean that work on the Bedlington and Nelson roads is going on at once. This is a road which will give the Great Northern direct access to Kootenay lake and tributary points.

The Regina Leader mentions that Klaxa Peters, of Regina, Man., is engaged in the work of colonizing Mennonites from Regina, Man., at Roseland, Sask. This is a movement that is worthy of every commendation. It keeps our own people in our own country and secures them the best opportunities of expansion which our country has to offer. But in view of this movement, what becomes of the theory which seems to have been adopted by the Dominion government, along with the other old clothes of their predecessors, that it is undesirable to promote a movement of people from one province to another? Or is it that other Canadians are not as well worth keeping as Mennonites?

The McMillan Fur & Wool Co., of Minneapolis, in their December circular say: The market is active and higher prices are being paid for a good many kinds of fur. Badger, wild cat, lynx and wolf. Muskrat are used principally in Europe, and the market there was filled up last spring, and a large collection is now being offered. We hope that in the future market will do better, but if they hold their own for the present it is all that can be expected. Bear, which is an export article, is out of fashion. The greatest demand is for marten, mink, and skunk. A good deal of the demand for skunk may be speculative, because they write from Europe that skunk is not in fashion there, and to sell them in this country. We think well of mink, particularly of the best dark sorts. Skunk mink is high. A very small per cent of marten pass as dark, and not a large per cent brown; most of them are pale. All furs caught at this season of the year are prime, except muskrat which are best as winter is nearing its close. The January London sales run from January 15th to 20th.

Mrs. P. HIRMINICK is recovering from the injury suffered by her last week.
This issue of the BULLETIN is printed in the forenoon, to give the office a holiday in the afternoon.
A CAR of wheat shipped to Winnipeg by E. Mado, of Stony Plain, is said to have realized 35c here.

G. J. BRYAN, principal of the public school, returned on Friday's train accompanied by his bride. The wedding was a very light one.
SLEIGHING possible, but not good. Roads so icy as to be impracticable for sleighs hauling loads. Consequently, rain deliveries and holiday business generally somewhat light.

A very successful Christmas entertainment was held in Belmont public school on Friday evening Dec. 23rd, under the management of the teacher Miss Chetwin. Mr. McCauley, M. L. A., acted as chairman. The program comprised songs, choruses, recitations and dialogues, and showed good ability on the part of the children and careful training by the teacher. Miss Chetwin, played the organ accompaniment. Music was also furnished by Geo. Fraser, violin; Gilbert McKay, fife; Miss Birdie McKay, organ. Refreshments were served. The school house was crowded to the doors. A collection was taken up in aid of the library.

MANITOBA MARKETS, DEC. 27.
Killarney 60c for Mo. 1, Portage 55c, Brandon 45c, Moosem 57c, Indian Head 45c, Rosethorn 40c, Alameda 47c, Plover 48c, Emerson 40c, Gretna 55c, Morden 50c.
Outside prices have improved, and there is a general expectation of a further rise during the next few weeks.
Fort William, 60c with an upward tendency.
Chicago, May delivery closed at 79c.
New York, March delivery 76c to 77c.
December delivery 75c.
Minneapolis, 67c for May delivery.
Duluth, 69c for May delivery.
Oats on farmers' market in Winnipeg are quoted at 25c to 27c.

NELSON PRICES, DEC. 27.
Reported specially for the BULLETIN by C. E. Mallette & Co., produce dealers. Wholesale prices f. o. b. Nelson, B. C.
Timothy hay, per ton, (scarce) \$17.00
Blue joint hay, per ton, (offering freely) 13.00
Prairie hay, per ton, (offering freely) 12.00
Oats, offering freely, per ton, equal to 37c a bushel.
Chicken wheat, per ton, (offering freely) 22.00
Chop feed, per ton, (offering freely) 24.00
Potatoes, (very scarce) per ton, 30.00
Eggs, strictly fresh, (scarce) per doz., 22c
Eggs, pickled, plentiful, 18c
Best creamery butter, per lb., plentiful, 23c
Dairy butter, per lb., plentiful, 20c.

WEEK OF PRAYER SERVICES.
On Tuesday evening the service will be held in the Methodist church. The subject is: Confession, Thanksgiving, and Prayer. Rev. D. G. McQueen.
On Wednesday evening in the Baptist church. Discussion opened by Rev. E. Forrester. Subject: Missions. Prayer, the responsibility of individual in making and enforcing righteous laws, training of the young for citizenship. Rom. 13, 1-7; 1 Tim. 2, 1-8; Deut. 6, 6-8.

FURS.
Very few lots of fur have been offered for competition this season as yet, although the total offerings have been greater than up to this time last year. The reason is that chiefly local lots have so far been offered, and they are generally too small to be worth putting up to competition. In other words trappers and small traders are offering their furs as fast as they get them, being satisfied with the prices they receive at private sale. These prices are good owing to the improved condition of the world's fur market. The local catch of fur comprises chiefly wolf, fox, muskrat, lynx, mink and bear. The bush furs in our districts last fall had a tendency to drive the fur bearing animals towards the settlement, making the local catch very good. Competition sales: J. Foley, of Swan Hills, \$108.65 to Stennett; Buffalo Lake Trading Co., \$85.75 to McDougall & Secord; W. G. Ross, \$30.15 to Stennett; Two hunters, \$52.07 to McDougall & Secord.

MARKETS.
Oats have bulged somewhat during the past few days. On Saturday 10c was being paid in town for feed oats, and one load is known to have been bought at 20c. Buyers were keener than they have been for some time. Deliveries were light.
Wheat is said to show some improvement. While 40c is still the standard price, more wheat is bringing 40c in South Edmonton than did a week ago, and 47c is said to have been paid for a load on Saturday.
Hay has dropped to \$4.30 and \$4.50 on the town market.

CALGARY & EDMONTON RAILWAY.
The annual report of the Calgary & Edmonton railway company for year ending June 30, says: The ordinary tonnage carried for the year was 54,774 tons, against 47,018 for the year ending June 30, 1897. This was during the preceding year. The tonnage carried during the year was 1,103,000 bushels of grain railway material. During the year the company carried 1,103,000 bushels of grain, against 934,235 bushels the year before; an increase of 168,765 bushels. Gross earnings for the year, exclusive of that from government under the subsidy (payments) were \$507,586.96, as against \$487,000 for the previous year. Operating expenses were \$163,207.88. Passenger traffic was \$86,250.17 as against \$38,196.75. The increase is attributed to some extent to the large number of laborers for the Crow's Nest road and passengers to the Yukon via Edmonton.

STRAIGHT MILL.
Arrangements have been completed for the erection of flour mill at St. Albert during the coming season. The parties interested are: J. Bourgeois, A. C. Hebert, and F. Perrault, who will form a company. It is understood that the project of a mill at McDeville will be dropped.

NEW ADVERTISEMENTS.

UNRESERVED Administrator's SALE.
The Farm, Farm Stock, Implements, Household Effects, Etc., of the late James Stamp will be offered for sale by Public Auction, on
Tuesday, Jan. 17th, 1899,
commencing at 12 noon sharp, on the premises S. E. of Sec. 9, Tp. 55, R. 23, west 4th M.

The farm contains 100 acres, more or less, of which about 80 acres are broken. 20 of which have been under cultivation. The whole is fenced, and in addition, there are about 20 acres fenced off as a pasture. The fencing is chiefly wire. There are three good wells.
The buildings consist of a dwelling house, one and a half stories, about 15x22, with lean-to shed; frame granary one and a half stories high, about 18x22; two large barns for stables and one smaller stable built of lumber, and two sheds.

The Farm Implements: Among these are a Massey-Harris binder, a Massey-Harris mower, a seed drill, disk harrow, hay rake, ploughs, harrows, wagons, sleighs, harness, etc., etc.
The Farm Stock: Five horses, including a specially fine work team; 18 head of horned cattle, two cows and seven pigs.
Miscellaneous: Household furniture, clothing, a large quantity of tools, a quantity of hay and green feed, etc.

A Free Lunch will be served at 11.00 a. m.
Terms of Sale: The real estate will be offered at an upset price, or subject to a reserved bid, and to the customary conditions of sale; 50 per cent of the price is to be paid at the time of the sale, 20 per cent in six months and the balance in twelve months; deferred payments bearing a per cent interest.
The cattle will be sold for cash up to \$25.00. If the surplus payable by any purchaser is also paid at the time of the sale, a discount of 5 per cent thereon will be allowed; otherwise, satisfactorily endorsed notes at three months, bearing 10 per cent interest, together with a lien agreement, if required, must be furnished.
For further particulars application may be made to
W. S. ROBERTSON, BROCK & EMERY,
Auctioneers. Advocates for the Administrator.

If you are thinking

and possibly worrying about what to buy for a few of your particular friends as a holiday present, let us suggest something.

Let it be Perfume.
There can't be any disappointment in such a present. It is useful and pleasing—more so than usual if it is a bottle of our new assortment. The bottle and the box that holds it are both extra handsome. Or a
Perfume Atomizer.

Our Fancy Perfume Atomizers range in price from 55c. to \$2.
Every one a beauty.

Standing advertisements: \$1.00 an inch per month.

BULLETIN Co. (LTD.)

EDMONTON BULLETIN, JAN. 2nd, 1898.

WHAT'S THE MATTER WITH ALBERTA?

The annual report of the Calgary & Edmonton railway, a synopsis of which appears elsewhere, is proof absolute of a measure of progress on the part of Northern Alberta that is not equalled in any other part of the Dominion of Canada. The shipment of over a million bushels of grain within the year, (and the elevators still contained a large quantity of last year's crop when the report was closed) is evidence of the productivity of the country and its suitability for grain growing that does not admit of argument. This (with four local flour mills and an oatmeal mill running day and night for six months of the year) against only a little over a quarter of a million bushels exported the previous year, shows a rapidity of growth which must be eminently satisfactory to all friends of Western Canada, and especially to the people of Alberta. And grain growing is not more important in the production of wealth in this region than the production of cattle, hogs and poultry and their products. In order to prevent mistaken conclusions from being drawn it may be well to mention that of the grain exported more than half was raised in the Edmonton district and was shipped from South Edmonton. While Southern Alberta produces the bulk of the cattle, Northern Alberta produces the bulk of the grain, and it is in the most northerly part accessible to the railway that grain growing has proven most successful, and has been most generally gone into by the farmers. A few years ago the Edmonton district was laughed at as a grain producer, by people who bounded their ideas of climate by lines of latitude. Now it shows a more rapid increase of grain production than any other district of the west, and it hasn't yet got fairly started.

The Galician editor of the Free Press has been getting in his work recently, and as a consequence it might reasonably be supposed from a perusal of the news and editorial columns of that paper that not only are the Galicians the most enlightened, progressive, and generally desirable settlers in the Northwest, but also that they are the chief and crowning fruit of the immigration policy of the government during the past year. The editorial conclusion which he reaches is thus expressed: "The best advertisement the Northwest has ever received will be the letters written to their old homes by these successful pioneers."

CROW'S NEST TRAIN SERVICE.

Nelson Miner: Passenger service on the Crow's Nest line will commence at once. The steamer Moyle will leave as it does now, Monday, Wednesday, and Friday, at 7 a. m. for Kootenay Landing where the train leaves at 12 o'clock for the east. Crowbrook will be reached at night and through passengers will have to spend the night there, proceeding west on Tuesday, Thursday, and Saturday. No night passenger trains will run over the line this winter. The service west will be on alternate days with that east, arriving at Nelson on Tuesdays, Thursdays, and Saturdays at 6:30 p. m.

The passenger rates will be on the basis of five cents a mile. Counting \$2 steamer fare from Nelson to Kootenay Landing, the through fares from here will be as follows: Similar, \$2.10; Gastell, \$3.85; Moyle, \$5.15; Crowbrook, \$6.15; Fort Steele Junction, \$6.65; Wardlaw, \$7.35; Jaffray, \$7.75; Elk, \$8.40; Fernie, \$9.30; Crow's Nest, \$11.10; Pincher Creek, \$13.05; Macleod, \$14.55.

LESSER SLAVE LAKE.

Mr. Carson, of the H. B. Co., arrived in here this morning, the 10th, from Edmonton. He was accompanied on his trip by three other teams. This makes the first outfit of freighters to come over the trail. He expressed himself as feeling perfectly satisfied with his trip. He took three weeks from the date of his leaving Edmonton until he arrived here. Mr. Carson thinks two weeks is average time for the trip, as he brought in wagons for the trade. Here that accounts for his time. The sleighing is excellent, but unfortunately as Mr. Carson had wheels he did not enjoy it. Five or six freighters are out from here for loads at Edmonton. They have sleighs and so far is felt as to their safe arrival here. Considerable pleasure is felt by the traders here at Mr. Carson's trip, as it opens up one more way of getting goods in. Henceforth the summer season was the only time when it was possible to get goods in; that being by way of the Athabasca, Lesser Slave rivers and the lake, a hard and not ever satisfactory route on account of damage by water.

The weather is very even in temperature here so far. Splendid sleighing, and as the Klondike rush of last fall left all kinds and color of horses by the way side, all hands sport a would-be trotter of doubtful pull gear. Jumpers of all kinds are very plentiful. Every native in the country has his band of cayuses and yard full of toboggans and old harness. It's a splendid sight to see a young native come dashing down the "pike" on the upper deck of a cayuse. It's a sight that a person (by stretching the imagination just a trifle) could recall London, the jubilee, and swaggy cavalry men, the fur catch is good so far, and promises well for the remainder of the winter.

Peace, plenty, and pleasure travel hand in hand out here. The fun lovers (and who isn't) are at fever heat, as a recognized belle is reported as thinking seriously of giving a little five o'clock tea shortly. I cannot vouch for the truth of the above as I have not received a tip as yet. Dances are a nightly occurrence. The country is fairly alive with fiddlers. There is a rumor about that they are about to strike for the money standard. Oh! Civilization is coming in by leaps and bounds.

A merry Xmas and a happy and prosperous New Year is extended by Slave lakers to the whole outside world.

Dec. 10th, '98.

HORSE MILLS.

The Sunday school has again been organized in the district, under the supervision of G. T. Dorland, and Maggie Todd, teachers. It is hoped parents will send their children, and remember King Solomon's advice: "Train up a child in the way he should go, and when he is old he will not depart from it." S. S. Apin, Baptist student, holds service here every two weeks at 11 o'clock a. m. Rev. A. Forbes, Presbyterian, Fort Saskatchewan, also holds service here every two weeks at 11 o'clock a. m. The Northwest government have sent out circulars calling attention to the "provisions of the law, relating to the growth and eradication of noxious weeds and the destruction of their seeds." Farmers should send for a copy of Bulletin No. 1, "Noxious weeds and how to destroy them." Weeds are getting plentiful here, and unless means to destroy them are taken, we will soon be in the same position as other parts of the Dominion, where farming has been rendered unprofitable on their account. Dorland's hound, Peter, has killed 15 coyotes this fall. If a few hounds were kept in every township coyotes would soon be scarce. John J. Dorland has bought Peter Seller's trotting mare, Mollie. And the way John handles the ribbons, proves him to be an expert at horse training. If John and the mare hold out till the first of July some of the sporting men will get a surprise. A. L. Lewis, disposed of a bunch of fat cattle to C. Gallagher, and good prices realized. The home of H. Vigna has been brightened by the advent of a new baby girl. Both mother and child are doing well. It is hoped the business men of Edmonton and the farmers will unite and build a first class roller mill and elevator. A good flour mill and elevator is the backbone to any new town. It seems the height of foolishness to be shipping wheat to the Lake of the Woods to be ground into flour and then re-shipped back here. The low prices paid here for wheat at present ought to enable any mill owner to ship north, south and west, and realize a handsome profit. Strangers who have settled here lately are surprised at the mild warm weather we are having at present. When boys at school we used to be taught that this part of the world was only fit for polar bears and Esquimaux.

Dec. 17, '98.

JOSEPHSBURG.

The examination (public) at the close of the school term took place on the 23rd Dec., and was attended by a large number of the parents, both German and English. Trustees Simmons and Mohr, and secretary-treasurer Doze were amongst the visitors. The pupils acquitted themselves, both as to conduct and proficiency, in a manner that reflected great credit on themselves and their teacher, Mr. J. M. Moran, and the parents present were not backward in expressing their delight at hearing that the teacher was so well regarded for his school, although there were twelve other applicants. In the evening the pupils gave a simple, but very interesting entertainment, which was listened to by a full house, and at its close a large quantity of candies, nuts, &c., bought by the pupils themselves were divided up, rich and poor, great and small, sharing alike. It would be hard to find a school in which the pupils are on better terms with one another or where there is a better feeling of social equality than here. Five boys, Rudolph Hennig, Rudolph Becker, Adolph and Joseph Mohr, and John Bomeran, presented their teacher with a chain and a very neat little address gotten up entirely by themselves. Phillip Mohr, Sr., and some associates have made a good start at getting up a flour mill for the Beaver Creek settlement, in addition to the saw mill plant mentioned in a former communication. Many of our farmers attended the meeting at the "Fort" last Saturday with a view to help along the proposed "Farmer's joint stock mill."

RESOLUTIONS OF APPRECIATION.

At the last meeting of the board of trustees of the Edmonton public school the following resolutions were adopted: Taylor-Ross. That this board hereby desires to express to Mr. G. J. Walbourne their regret at losing, and their appreciation of, his long and faithful service as assistant in the Edmonton Protestant public school. That in the opinion of this board, the high standing of the school is largely due to his constant attention, duty and powerful methods of teaching. Further, that the board wishes Mr. Walbourne and his family a Merry Christmas and many a happy and prosperous New Year.

Taylor-Ross. That this board desires hereby to express to Miss Rogers their regret at losing, and their appreciation of, her long and faithful service as senior lady teacher in the Edmonton Protestant public school. That the board considers that her loss will be severely felt by trustees and parents, and that it will be difficult to replace her with a teacher of equal abilities. Further, that the board trusts that whenever Miss Rogers may be and whenever she may be her vocation, she may always be successful and happy.

E. Raymer,

..Watchmaker and Jeweler..

CHRISTMAS will soon be here, and for the holiday season I have the finest assortment of goods ever offered here in my line, and at prices to please everyone. Fine Jewellery, Ladies' and Gents' Watches, Gem Rings, Lorgettes, Brooches and Chains of all kinds, Silver and Gold-mounted Belts, Bracelets, and a great variety of novelties in Jewellery. Also a lot of fine Solid Silver Goods and Sterling Silver-mounted Leather Goods, Pipes, etc. The finest lot of Electro-plate that I have ever had, at prices lower than ever. Fine Clocks in Enamel, Iron, Porcelain, Marble and Brass.

It is needless for me to say more—you will have to come and see for yourself.

First-class Watch Repairing in all its branches; also Wedding Rings and Jewellery manufactured from Saskatchewan Gold on the premises.
